SARAH RIVERA

Frontend Developer | React & JavaScript

sarahannrivera25@gmail.com | 401-215-4156 | Rhode Island | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Frontend developer building responsive, user-focused web applications with React, JavaScript, Next.js, and TypeScript. Hands-on experience delivering deployed projects with REST APIs, relational databases, Stripe payments, and automated email workflows. Brings a client-focused background in operations, project coordination, and design.

TECHNICAL SKILLS

Frontend: JavaScript, React, HTML5, CSS3, Responsive Design, Next.js, TypeScript, Tailwind CSS

Backend & Data: Node.js, Serverless Functions, REST APIs, Supabase, PostgreSQL, Firebase, Firestore, Redux Toolkit, Axios, localStorage

Tools & Integrations: Git, GitHub, Vite, Vercel, Stripe Checkout & Webhooks, Resend, EmailJS

SELECTED PROJECTS

UNSEALED | React / JavaScript / Node.js / Supabase / Stripe / Resend / Vercel | 2026

- Built and deployed an episodic digital storytelling platform with responsive story selection, paid checkout, and Follow or Binge delivery options.
- Integrated Stripe Checkout and verified webhooks with Supabase/PostgreSQL to manage subscribers, purchases, and story-specific enrollments.
- Developed serverless email workflows using Resend for immediate story delivery and scheduled installments, with enrollment checks and delivery tracking.

Skinstric | Next.js / TypeScript / Tailwind CSS / REST API | 2026

- Built a responsive AI-powered skin analysis interface featuring image upload, webcam capture, Base64 processing, API-driven results, and dynamic routing.
- Managed client-side state and localStorage; created interactive demographic results, animated loading states, and responsive visualizations.
- Refined features through mentor feedback, iterative debugging, responsive testing, Git-based development, and Vercel deployment.

Netflix Clone | React / Firebase / TMDB API | 2026

- Built a responsive streaming interface with Firebase authentication, protected account flow, dynamic routing, and reusable React components.
- Implemented debounced TMDB search, trailer routing and fallbacks, environment-based credentials, and production deployment.

FRONTEND DEVELOPMENT EXPERIENCE

Frontend Developer Intern | Frontend Simplified / Summarist | 2026

- Built and refined production-style Next.js and TypeScript features using Firebase/Firestore, Redux Toolkit, responsive UI patterns, and live API data.
- Implemented authentication behavior, debounced search, navigation, content pages, audio/player functionality, loading states, and reusable components.
- Worked with feature branches, pull-request review, mentor feedback, iterative debugging, and deployment during intensive frontend training.

PROFESSIONAL EXPERIENCE

Remote Field Agent | American Income Life / Prata Organization | Feb 2025 - May 2026

- Managed multistate remote sales workflows, including outreach, scheduling, virtual presentations, needs analysis, follow-up, and applications.

Business Co-Owner | Rivera Renovation, Inc. / Rivera Properties LLC | 2019 - Present

- Coordinated financing, contracts, schedules, materials, vendors, and client-facing design decisions across renovation and real-estate projects.

EDUCATION & PROFESSIONAL DEVELOPMENT

Frontend Simplified - Frontend Development Program, 2026 | Roger Williams University - Coursework | Johnson & Wales University - Coursework
